The 1st International Conference on Sustainable Agriculture and Aquaculture for Well Being and Food Security >

PISAI (Participatory and Integrative Support for Agricultural Initiative) >

The 1st International Conference on Sustainable Agriculture and Aquaculture for Well Being and Food Security

The 1st International Conference on Sustainable Agriculture and Aquaculture (ICSAA) for Well Being and Food Security was organized by the Faculty of Natural Resources, Prince of Songkla University in Thailand on 11 and 12 January 2021. The conference was organized with the support of PISAI project and FTA is the active partner of this project financed by the Erasmus+ programme.

The students and staff of the FTA participated in the conference with a poster or oral presentations. FTA student of International Development and Agricultural Economics study programme, Mr. Lim Techhong, got the price for Second Runner Oral Presentation to appreciate his presentation with the topic „Consumer’s Attitudes Toward Insect Consumption in Cambodia“. Academic staff of FTA, Petra Chaloupková and Olga Leuner, presented the topic “To Work or Not to Work in Agriculture? Perspectives and Expectations of Students and Employers in Thailand” during the special session of the conference and they summarized the data and research outputs collected within the implementation of EU projects [PISAI](#), [SIMPLE](#) and [ASK Asia](#).

Video presentation and pictures of the ICSAA Conference 2021 are available at the [PISAI project websites](#) and the [conference website](#).

PISAI Workshop in Thailand

by secretary | Dec 19, 2018 | Blog | 0 comments

Soil Quality Assessment and Biofunction workshop

The workshop in the framework of Participatory and Integrative Support for Agricultural Initiative program PISAI was held from 19/11/2018 to 24/11/2018 at Khon Kaen University in Thailand, and organised by two Agrinatura (CIRAD and from IRD ECO&SOLS) experts: Dr Alain Brauman and Dr Alexis Thoumzeau with assistance of local

AGRINATURA is a grouping of European universities and research organizations with a common interest in supporting agricultural development in a sustainable manner in order to improve people's lives.

AGRINATURA brings its collective resources to work in partnership with international collaborators. It seeks to nurture scientific excellence through joint research, educational and training programmes and projects and advocates for greater support for agricultural research and educational programmes that contribute to the achievement of the Millennium Development Goals and the new agenda of Sustainable Development Goals.

Events

PISAI Project – Facebook and up-to-date activities and contents

The image shows a screenshot of the PISAI Project Facebook page. At the top, there is a cover photo with the text "Participatory and Integrative Support for Agricultural Initiatives" and a grid of agricultural images. Below the cover is the PISAI Project profile information, including the name, a bio, and a "Follow" button. The page features a navigation menu with "Home", "Groups", "Jobs", "Events", and "More". A "Go to Business Suite" button is visible. The main content area includes a "Create Post" section with options for "Photo/Video", "Get Messages", and "Feeling/Activity". Below this is a "Free Facebook Business Tools" section with links for "Add Appointment Bookings", "Host Paid Online Events", and "Post a Job". The "Insights" section shows statistics for the last 28 days: 1,394 People Reached (+62%), 603 Post Engagements (+16%), and 0 Page Likes (+100%). A featured post titled "THE EFFECTS OF AGROECOLOGY. WHY ARE METRICS NEEDED?" is highlighted with a "REGISTER" button. At the bottom, a table titled "All Posts Published" lists various posts with their dates, content, and engagement metrics.
