

Student Exchange Mobility

23rd September – 6th October 2019

**Host by Faculty of Tropical AgriSciences
Czech University of Life Sciences Prague (CZU)**

Thai delegates of the PISAI project at FTA

This Autumn 2019, the delegates of the PISAI project (Participatory and Integrative Support for Agricultural Initiative) from Thai partner universities visited the Czech University of Life Sciences Prague (CZU) as arranged by the Faculty of Tropical AgriSciences (FTA). As a European partner university, FTA prepared this program for the students of the joint double-degree Master's program in sustainable agriculture of the PISAI project, to get familiar with the education in the Czech Republic and the European Union and get ready for Module 2 which will be led by a European partner university, Montpellier SupAgro.

The program lasted for nine days, from September 23th to October 2nd. The delegates included four students and two academic staff from three Thai universities (Chiang Mai university, Prince of Songkla University, and Khon Kaen University). The program was prepared by Dr. Petra Chaloupková (Vice-dean for International Relations) and Dr. Olga Leuner (Vice-Dean for Science, Research and Doctoral Study) of the FTA and practical management of activities was ensured by two PhD students of the FTA, namely Jas Staš and Veit Ny.

The aim of the visit was to motivate the Thai students to explore, learn and experience other education system, student performance, as well as the different culture in general. Therefore, a wide range of activities was included in the program such as scientific presentations, lectures, trip to the countryside, and excursions to the university cattle and eland farms. Students presented their master thesis to the Czech committee (Dr. Petra Chaloupková and Dr. Olga Leuner) to show their progress in their research and get some useful feedbacks to improve their report. They also participated the lectures and seminar taught at the FTA, especially at the study programme International Development and Agricultural Economics. The Thai academic staff also gave presentations about their work to share their research outputs to the Czech colleagues.

Aside from educational activities, the delegates visited the whole campus of the university (research facilities, faculties, laboratories, botanical garden etc.). They also toured the beautiful Prague city to many historical, natural and important sites of the Czech Republic. Furthermore, they had the chance to travel to a “spa city”, Karlovy Vary, to see the different medieval architects, beautiful view of the autumn season, and try famous food and drinks in this place.

This visit was a great experience appreciated by the Thai delegation and will be motivating for their academic life as well as personal development.

Table of Contents

Program	1
Report on the exchange activities	
Mr. Seksan Duangsingtham	2-7
Miss Keminee Tongma	8-17
Miss Wantanee Meeloon	18-24
Miss Chatnapa Nowat	25-33
Report of Thai delegation by CULS	34-35

Program for the Thai delegation, Sept 23 - Oct 2, 2019, Czech University of Life Sciences Prague

Day / date	Time	Activity	Breakfast	Lunch	Dinner
Monday Sept 23	13.10 p.m.	Pick up at the airport			Not arranged (own responsibility)
		Free program			
Tuesday Sept 24	8.45 a.m.	Pick up at the accommodation	Provided in the hotel	Provided in the university canteen	Not arranged (own responsibility)
	9.00 a.m.	Faculty presentation at FTA meeting room T 137			
	9:15-17:00	Staff - meeting with Didier Pillot, meeting room T 137			
	9:15-12:00	Students - Campus tour, botanical garden visit			
	12:00-13:00	Lunch at university canteen			
	13.00 p.m.	Students - Official welcome ceremony of first year students			
	14.00 p.m.	Students - campus visit			
	17.00 p.m.	Ice Hockey match			
Wednesday Sept 25	9 a.m.	Pick up at the accommodation	Provided in the hotel	Provided	Not arranged (own responsibility)
		Trip to Karlovy Vary

		Taxi to the airport			

18-Sep-2019

Mr. Seksan Duangsingtam
Chiang Mai University

PISAI-Erasmus Plus Project**Report on Trip to European Universities**

1. Name Seksan.....Family Name Duangsingtham
Position Student third year master degree Department/Faculty major Agricultural
Extension department of Agricultural Economy and development ,Faculty of agriculture
University Chiang Mai University

2. Purpose of Visit (Please list itinerary.)Visit the Faculty of Tropical AgriSciences, The Czech
University of Life Sciences, Czech Republic to present my research for PISAI Project and
learning and visiting Agricultural system at CULS

3. Details of activities during visit

Day: 24 September 2019

Time 08.00 – 09.30 lecture about the Faculty of Tropical AgriSciences, The Czech University of Life
Sciences, Czech Republic by Officer

Time 09.30 – 12.00 Visit the area around the university by student glide they present the direction
in university and direction abo faculty in CULS

Time 13.00 – 15.00 Visit the University farm this are make the product to university that make organic product only

Day: 25 September 2019

We are visiting at Karlovy Vary Region city we are learning to the history's city and visit the market system in this area.

Day: 26 September 2019

We are visit at Eland farm and beef farm where the research section of university.

Day: 27 September 2019

Time 8.00 – 12.00 Present project at Thailand and discuss the guideline for research

Time 13.00 – 16.00 visit in the center city at Prague city such as Prague Castle ,Old Town (Staré Město), (Svatovavclavska kape)and (Charles Bridge)

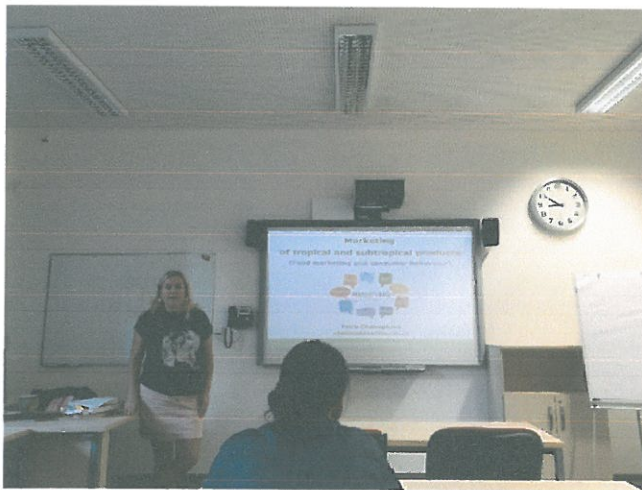

Day: 30 September 2019

Time 8.30 – 11.00 we are lecture course seed and paddy in the world by Dr Olga in the Faculty of Tropical AgriSciences, The Czech University of Life Sciences, Czech Republic

Time 13.00 – 15.00 we are lecture course natural resource and management in the Faculty of Tropical AgriSciences, The Czech University of Life Sciences, Czech Republic

Day: 1 October 2019 we are lecture course the Agricultural marketing in the Faculty of Tropical AgriSciences, The Czech University of Life Sciences, Czech Republic

4. Outputs and outcomes that will be beneficial to PISAI, double degree implementation between Thai universities and students.
1. Receive exchange of knowledge about agricultural systems of developed countries like Europe.
 2. Learned to exchange knowledge and culture
 3. Get guidelines for improving research
 4. Exchange for experience change about agricultural system in Prague city

**Miss Keminee Tongma
Prince of Songkla University**

PISAI –Erasmus Plus Project

Report on Trip to European Universities

1. Name Keminee Family Name Tongma
Position MSc. Student Department : Department of Agricultural Development
Faculty : Faculty of Natural Sources University : Prince of Songkla University

2. Purpose of Visit (Please list itinerary.)

..... Visit the Faculty of Tropical AgriSciences, The Czech University of Life Sciences, Czech Republic to learning course, visiting farm and agricultural system and present my research for PISAI Project.

3. Details of activities during visit on period of 23 September – 2 October 2019

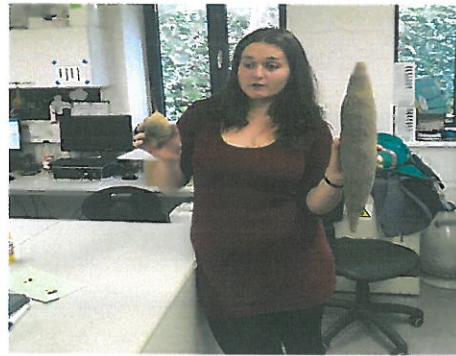

Date : Monday 23. 09. 2019

Activities : Free program

Date : Tuesday 24. 09. 2019

Activities : 9.00-12.00 Faculty presentation at FTA meeting room T 137 by Officer and
Visit each faculty of Czech University of Life Sciences by student glide.

13.00-15:00 Campus tour, visit botanical garden and the University farm.

17.00 Join to watch the Ice Hockey match.

Date : Wednesday 25. 09. 2019

Activities : Trip to Karlovy Vary : We are visiting and leaning history of Karlovy Vary and the market in this area.

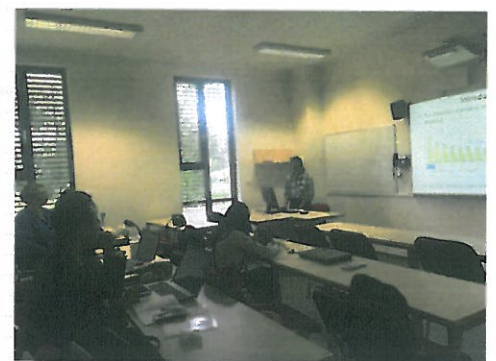

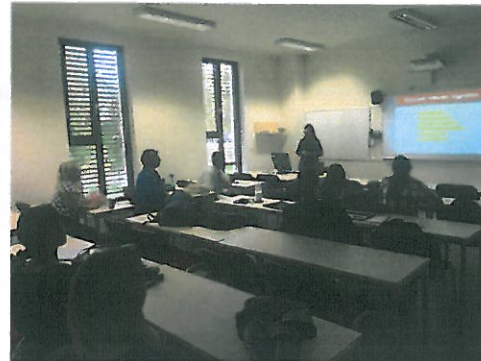

Date : Thursday 26. 09. 2019

Activities : Tour to the university farm : We are visit at Eland farm and beef farm where for study and research of the university.

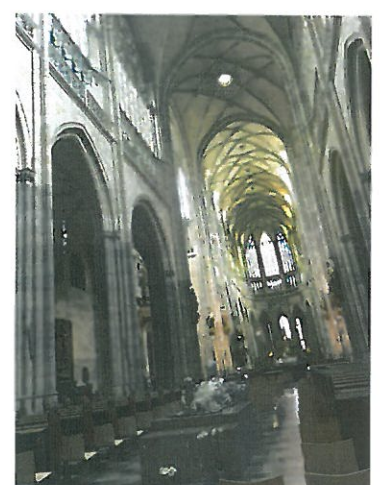

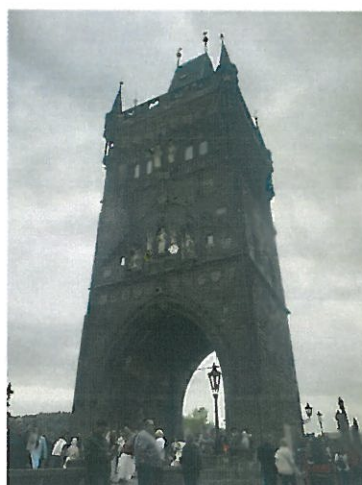

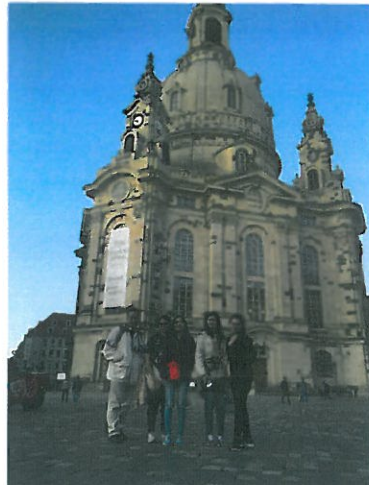

Date : Friday 27. 09. 2019

Activities : 09.00-12.00 Master student and Staff of Thailand present their own projects and discuss about the guideline and development for research.

13.00-16.00 Prague City tour : We are visit Prague Castle, St. Vitus Cathedral, Astronomical Clock, Old Town and Charles Bridge.

Date : Monday 30. 09. 2019

Activities : 8.45-12.00 Visit lecture Cereals and Pulses and Resource Ecology
by Olga Leuner in the Faculty of Tropical AgriSciences, The Czech University of
Life Sciences, Czech Republic.

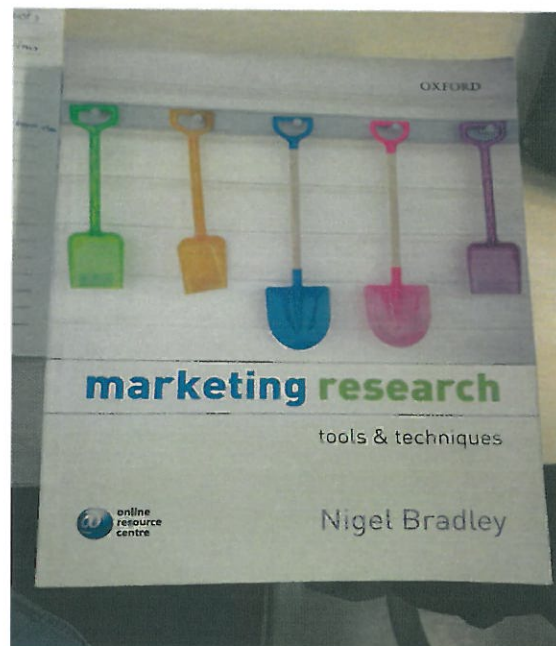

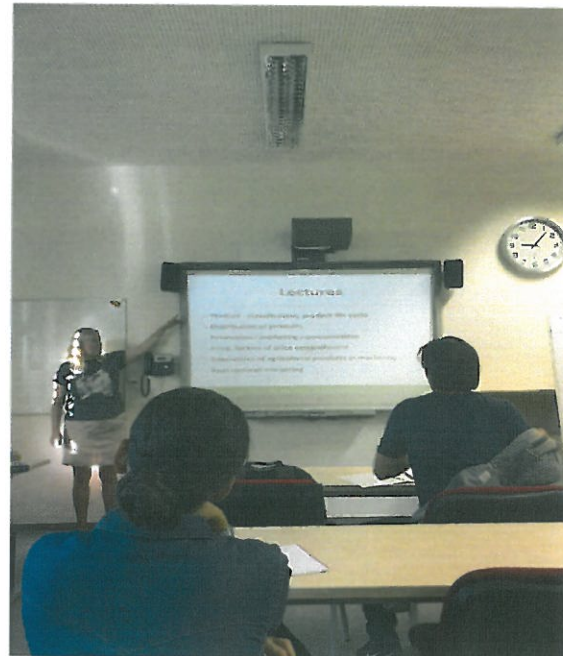

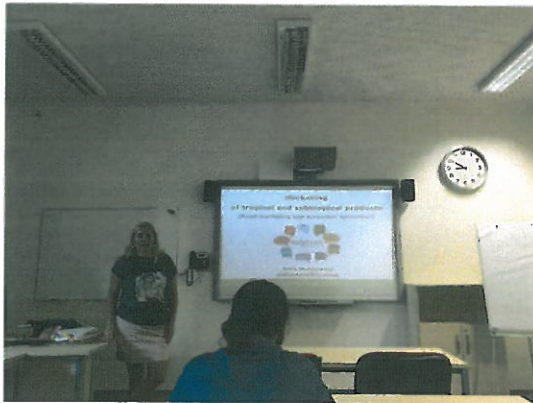

12.15-15.30 Visit lecture Resource Ecology: soil-plant-animal Interactions by
P. Hejmanova in the Faculty of Tropical AgriSciences, The Czech University of
Life Sciences, Czech Republic.

Date : Tuesday 1. 10. 2019

Activities : 8.45-13.45 Visit lecture Marketing of TS Products by P.Chaloupkava in the Faculty of Tropical AgriSciences, The Czech University of Life Sciences, Czech Republic.

4. Outputs and outcomes that will be beneficial to PISAI, double degree implementation between Thai universities and students

1. Exchange experiences about agricultural systems between Thailand and Prague city.
2. Learned about the history, culture of Prague city.
3. Get guidelines for improving and developing my research.
4. Exchange experiences and receive new knowledge from direct experience of researchers in the classroom.
